FOREWORD

MESSAGE TO THE MALAYAN AGRICULTURAL JOURNAL

FROM

His Excellency, Sir Cecil Clementi, G.C.M.G.
Governor of the Straits Settlements and High Commissioner for the Malay States.

I am very glad that the Malayan Agricultural Journal is devoting a double issue to the subject of rice cultivation in this Peninsula. It is a vital and urgent necessity that Malaya should become self-supporting with respect to the staple foodstuff of its population, namely rice: and the Malayan Administrations are fully determined to do everything in their power to encourage and assist the improvement and expansion of the local rice industry. I feel sure that this issue of the Journal will prove to be most helpful to all concerned in padi planting and all other aspects of the rice industry, and I trust that it may thereby materially contribute to the welfare of the people of this country.

High Commissioner.

King's House,
Kuala Lumpur,
